PROFESSIONAL SUMMARY

UI architect and frontend engineer specializing in scalable Next.js/React systems, media-psychology-driven UI/UX, and entity-first technical SEO. Bachelor of Arts in Linguistics, Media and Communication (Moi University) informs a design approach rooted in cognitive load reduction and human-centered information architecture.

EXPERIENCE

Website & Graphic Designer — JG Creative Tech Solution

Nov 2025 — Present

Driving high-performance digital solutions with a focus on Webflow and WordPress performance optimization. Improved site speed by 40% and technical SEO visibility by 25% through structured data, semantic markup, and asset optimization.

Freelance Designer — JayGraphics Family

Feb 2025 — Nov 2025

Delivered 60+ high-fidelity brand assets across various industries, maintaining a 95% client satisfaction rate through meticulous attention to brand psychology and 10+ complete business brandings.

Graphic Design Apprenticeship — Phloem Media

May 2024 — Dec 2024

Focused on production workflows and cross-platform visual consistency in a fast-paced agency environment; delivered 10+ custom visuals and supported UI/UX issue resolution and testing.

Marketing & PR Intern — Koitaleel Samoei University

Sep 2022 — Apr 2023

Bridged the gap between institutional messaging and digital engagement through strategic communication, contributing to a 10% engagement boost and coordinating events for 300+ attendees.

EDUCATION

Bachelor of Arts: Linguistics, Media & Communication

Moi University — Sep 2019 — Dec 2023
